

CELEBRATING 100 YEARS

Bailey Hats launched in 1922, so we are celebrating one hundred years as an iconic hat brand this year. This is a tremendous milestone, and we relish the opportunity to celebrate a century of Bailey craftsmanship, style, sophistication, and exquisite product with our customers throughout the world.

Our Bailey products are created to elevate the spirit and heighten each person's unique experience. Our products make a bold statement, crafted for the connoisseur, the adventurer, the seeker. As we usher in a new century of innovative design, we look both to the past and to the future for design inspiration, embracing Bailey's rich heritage with an eye always focused on our external world.

We celebrate innovation with our Elite Collection featuring our new Superfine Velour and Beaver finishes. With appreciation for sustainability, we continue to push the envelope on elevating wool felt, so these hats look and feel like luxurious fur felt.

Our newly launched Bailey Outdoors Collection presents an assortment of products geared to a new world. It includes some new unique LiteFelt® styles, as well as a group of modern cut and sewn products. We are also bringing back a new knit collection.

Bailey hats are designed for every moment in a person's life, so that we can all celebrate together. Happy 100 years to Bailey 1922! May we travel forth into another century with inspiring Bailey products that support you to wander, to explore, to connect and to ride forth with all that is around you.

FUR FELT

Our most luxurious offering, Superior Fur Felts are made in America's oldest factory in Pennsylvania from the world's best European hoods. Using 40% beaver and premium rabbit and hares fur, special felting techniques are used to create a very fine, ultra thin and lightweight hat. Velour Fur utilizes a special hand brushing finish to raise the fibers and create a velvet like feel.

SUPERFINE VELOUR

Part of our Elite Group, our Superfine Velour finish starts with ultra-fine wool that is 16 microns and gets extra slow initial felting. We then use proprietary, century old, finishing techniques that include hand raising and shearing of the wool fibers to create this super smooth feel and glossy finish.

S, M, L, XL

THE COLVER in honey color.

ELITE FINISH

Elite hats start with fine 16 micron sheep's wool and get twice the carding and wet felting. Proprietary sanding and hand finishing bring this luxury wool to life.

Elite Stiffened felts use a 'hand cooked' shellac for a heritage stiffened feel.

20009BH COLTER

LITEFELT®

The Bollman Hat Company invented a revolutionary process that takes a natural unstiffened premium wool felt hat and treats it with a water repellent and shape retentive proprietary process. This makes LiteFelt® a tough and indestructible choice. Often copied and never duplicated, LiteFelt® products are our most famous finish, combining style and functionality.
